

Welcoming Dr. Nine-Paula Olmesdahl

We are delighted to introduce Dr. Nine-Paula Olmesdahl, a recently qualified pathologist with a diverse background in clinical medicine. She holds a master's degree in medicine (MMed) in Anatomical Pathology from the University of the Witwatersrand and is a specialist registered with the College of Pathologists of South Africa.

Contributions to Medical Research

Dr. Olmesdahl has actively contributed to the field of pathology through her publications in esteemed international journals:

- ✓ **"A retrospective analysis of the clinicopathological features of patients with tuberculous mastitis: A single institution's experience."** Published in *Acta Cytologica*, September 2023 (DOI:10.1159/000534193).
- ✓ **"A Severe Case of Molluscum Contagiosum Immune Reconstitution Inflammatory Syndrome in a Patient with Human Immunodeficiency Virus."** Published in *Eur J Case Rep Intern Med*, January 2022 (DOI:10.12890/2022_003115).

A Passion for Nature and Conservation

Beyond her professional commitments, Dr. Olmesdahl is an avid nature lover who enjoys visiting the Kruger National Park. She is deeply passionate about environmental conservation and advocates for sustainable practices in both her professional and personal life.

Life Beyond Pathology

Dr. Olmesdahl shares a love for adventure, travel, and fine cuisine with her husband, Gerrit Pieterse. As a Stellenbosch-based architect who is part of a family business, Gerrit embraces the outdoors and enjoys the ocean. Together, they explore new destinations and indulge in their shared appreciation for good food and nature.

We are thrilled to have Dr. Olmesdahl as part of the team and look forward to her future contributions to pathology and patient care!
